### ABOUT ME

I have lived in Folkestone since I was a teenager. I worked in the horticultural industry for several years before moving into support roles with adults with learning difficulties at local trusts. This experience has given me the opportunity to work with a wide variety of people and age groups, helping me to develop patience, understanding, and the ability to communicate with people in a supportive and respectful way. I understand the importance of handling concerns with sensitivity and confidentiality, and I would always strive to ensure that anyone who comes to me feels supported, valued, and taken seriously.
